

FERTILIZATION GUIDE FOR COTTON

FERTILIZATION GUIDE FOR COTTON

COTTON FERTILIZATION(GENERAL)

Cotton is the most widespread profitable non-food crop in the world. Its production provides income for more than 250 million people worldwide and employs almost 7% of all labor in developing countries. Approximately half of all textiles are made of cotton.

The global reach of cotton is wide, but current cotton production methods are environmentally unsustainable—ultimately undermining the industry's ability to maintain future production.

Bringing cotton production in line with even minimally acceptable environmental standards is a challenging task. WWF is working with a coalition of global partners to promote the sustainable production and use of cotton in a variety of ways.

FERTILIZATION GUIDE FOR COTTON

COTTON FERTILIZATION(GENERAL)

Base Fertilization

March

Pulcu LeoBio

40 - 50 Kg / Decare

Pulcu Excellent 14-12-14+13S

40 - 50 Kg / Decare

Drip Irrigation Fertilization

June

2P AminoMax 45

100 cc / Decare

2P Zinc Edta %15

100 gr / Decare

Nano Elite 30-10-10+Te

2 - 5 Kg / Decare

July

Nano Elite 30-10-10+Te

2-3 kg / Decare

Pulcu Expert 20-20-20+Te

1-2 kg / Decare

August

Nano Elite 20-10-20+2,5MgO+Te

2-3 kg / Decare

FERTILIZATION GUIDE FOR COTTON

COTTON FERTILIZATION(GENERAL)

Overhead Foliar Fertilization
During Seedling Period

2P BioHumic 25	50 cc / Decare
----------------	----------------

2P Zinc Edta %15	100 gr / Decare
------------------	-----------------

Pulcu Expert 20-20-20+TE	200 gr / Decare
