

FERTILIZATION GUIDE FOR HAZELNUT

FERTILIZATION GUIDE FOR HAZELNUT

HAZELNUT FERTILIZATION

Never allow the soil around a hazelnut tree or shrub to dry out completely. Water weekly during dry spells, allowing as much water as possible to sink deep into the soil. Hazelnuts don't need regular fertilization if they are grown in good soil. If you notice slow growth and pale leaves, the plant will probably benefit from a small amount of nitrogen fertilizer in spring. Hazelnuts need little or no pruning when grown as a shrub, other than the removal of suckers that arise from the roots. To shape a tree, choose six strong upper branches to form the main scaffolding, and remove the lower branches as well as those that hang down. Hazelnuts drop from the tree as they ripen in fall. Rake the nuts into a pile for easy harvest, and gather them every few days. The first nuts may be empty. If you're looking for a small tree or shrub that is practical as well as attractive, consider the hazelnut. Growing this hardy plant is easy, and you'll enjoy the first nuts from your tree in as little as four years.

FERTILIZATION GUIDE FOR HAZELNUT

HAZELNUT FERTILIZATION PROGRAM

Base Fertilization

In November

Pulcu Excellent NPK 13-30-18+S+Zn

1 Kg / plot

2P AminoMax 45

100 cc / decare

Soil Cultivation in Spring

Pulcu Excellent 14-12-14+13S

1 Kg / plot

2P AminoMax 45

100 cc / decare

LEAF FERTILIZATION PROGRAM

At the Beginning of the Leaf Fall

100 lt water

2P Cytokin

100 cc

Nano Elite 11-40-10+2,5MgO+Te

100 gr

2P Nano Root

250 cc

In the Spring, During the Flowering Period

100 lt water

2P Nano Root

250 cc

Pulcu Expert 18-18-18+Te

250 gr

For Egg Formation

100 lt water

2P Nano Root

250 cc

2P BorMax

150 cc

FERTILIZATION GUIDE FOR HAZELNUT

HAZELNUT FERTILIZATION PROGRAM

LEAF FERTILIZATION PROGRAM

For Fruit Development

100 lt water

2P Zinc EDTA 15%

80 gr

Nano Elite 17-7-21+6,5CaO+2,5MgO+TE

250 gr

Before Harvest

100 lt water

2P Nano Root

250 cc

Pulcu Expert 7-6-40+Te

250 gr

After Harvest

100 lt water

Nano Elite 11-40-10+2,5MgO+Te

250 gr

2P Nano Root

250 cc

2P Zinc EDTA 15%

80 gr
